

EC-LLC Environmental Sustainability Policy

1. Context

Explosives Consulting and Engineering (EC-LLC) is an engineering consulting company with office at 11 Timber Lane, Shelburne, VT 05482. It occupies a home office in a residence.

2. Responsibility

John Childs, President is responsible for the policy.

3. Reducing direct carbon emissions

The EC-LLC footprint is very low. We endeavor to reduce it by carefully managing our electricity and heating consumption.

4. Reducing indirect carbon emissions

- Power – We prioritize energy efficiency
- Travel and transport – We work out of our home office and minimize travel through online meetings.
- Design – We carefully consider energy efficiency and sustainability in the designs that we provide to our clients.

5. Reducing your waste

We minimize waste and run a paper-free office. No printers are used for the business.

6. Engagement

We encourage any temporary help to adopt the same sustainability policies used by EC-LLC

7. Measuring and monitoring

- Monitor electric bill
- Monitor heating bill
- Ensure that computers are shut down over night.
